Instructions to the students

Aim of the preparatory work

You will present (as group work) a full evaluation proposal at the end of the course. The work below is the first step towards developing that proposal, helping you to think through the components of the proposal.

Instructions

1. Prepare the Content page (1 page only) for a qualitative evaluation you wish to conduct on a health system or health service topic, relevant in low-to-middle income countries.
   ✓ Please give the title of the evaluation you want to do.
   ✓ Give only the headings of the content page.

2. This must be submitted to willem.odendaal@mrc.ac.za no later than 25 October.
