

## KEY AREAS OF SOCIAL DETERMINANTS OF HEALTH

Five key areas of Social Determinants of Health discussed in this course are

- Economic Stability
- Education
- Social and Community Context
- Health and Health Care
- Neighborhood and Built Environment

The graph above is developed by [Healthy people 2020](#), which provides science-based objectives for improving the health of Americans. There are variety of perspectives what sectors should include in the social determinants of health. We chose the above for this course based on it's simplicity and because it has the most important key areas included.
